The arts provide many opportunties to encounter art using visual art from a wide range of cultures and influences.

Through art children learn how to convey feelings, thoughts giving them the opportunity to express themselves.

Children are able to celebrate personal creativity through the lessons of art.

## SMSC in the Arts

Through creating artworks children are able to express themselves in response to a variety of stimuli including the natural world.

Experiencing the arts evokes a range of emotions and allows them to raise questions.

Children are able to work in groups and cooperate both in the curriculum offered and extra planned activities.
